

DAFNE Graduate Group

The purpose of the DAFNE Graduate Group (DGG) is to represent graduates who have completed a DAFNE course in either the UK or the Republic of Ireland. The group, which is run in conjunction with DAFNEonline, offers its members access to all the features of DAFNEonline as well as information on the DAFNE Programme and the opportunity to get involved in the activities it runs e.g. research & updates to the course.

In addition membership of the DGG provides a mechanism for the DAFNE programme to contact graduates to obtain input and views. There are now over 30,000 DAFNE graduates and the course is offered in over 140 locations, but there is no central database of graduate names and contact details. Therefore membership of the DGG will be used instead. In these cases the DAFNE User Action Group (DUAG), whose members were elected to represent all DAFNE graduates, will make contact and it is this team who will also provide information, including a regular newsletter, to DGG members.

I hope you will choose to join us.
